

# CYBERSECURITY SERVICES

We bring on-demand strategic and operational cybersecurity leadership to organizations that don't have the resources to staff a full-time CISO.

## VIRTUAL CISO

### The Rise of the Virtual CISO

- CISOs are more in-demand than ever as cybersecurity concerns increase
- CISOs are hard to come by and even harder to retain
- Most CISOs command six-figure salaries and can be hard for SMBs to justify
- In contrast, virtual CISOs cost 30 - 40 percent of the cost of a full-time CISO
- Virtual CISO services are purchased in hourly blocks and available on demand
- Virtual CISOs are not tied to the company and are therefore more results-driven
- Virtual CISOs can work for both low-risk and high-risk organizations
